

**SulinPack**  
YOUR PACKAGING OPTIMIZER

## ABOUT THE COMPANY

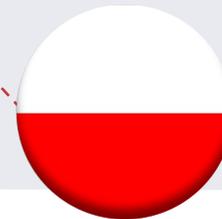

**SulinPack Sp. z o.o.** is a specialized company with a team of professionals experienced in the packaging industry, drawing from backgrounds in prominent global firms such as ATP Engineering & Packaging, MeadWestvaco Packaging Systems, Graphic Packaging International, and Rockwell Automation.

The company's core activities include:

- Packaging materials supply, packaging development and optimization
- Production of the Multipacking Machinery, dedicated to the Food & Beverage and Personal Care industries
- Technical maintenance, services, machine renovations, and modifications aimed at ensuring the optimal performance of packaging lines, whether they are existing systems or newly installed equipment.
- Other new Packaging equipment supply

The company's team is multidisciplinary, including automation engineers, electricians, mechanics, packaging designers, specialists in system optimization, production management engineers, economists, financial analysts, and sales and marketing strategists.

This diverse expertise enables SulinPack to provide tailored solutions that meet the specific needs of each client.

## OUR MISSION

**To become the first contact company in consulting and selecting solutions necessary to optimize the packaging process. We want to be a company that creates added value by supporting customers with innovative solutions that perfectly meet the expectations and constantly changing market requirements.**

constantly changing market requirements  
solutions that perfectly meet the expectations and
